Income Declaration – Terms Explained

1. **Salary sacrifice superannuation:** this amount is for any additional superannuation you have had deducted from your gross salary before PAYG tax is calculated – this is superannuation you are choosing to contribute above the compulsory 9.5% employer contribution.
2. **Other salary sacrifice amounts:** similar to 1 above, but for any other non-superannuation amounts you have salary-packaged from your gross salary before PAYG tax is calculated.
3. **Negatively geared rental property loss:** this is the amount of rental loss showing as Net Rent at Item 21 in your personal Income Tax Return.
4. **Other negative gearing losses:** this is the amount of other losses from negatively geared investments shown elsewhere in your personal Income Tax Return (such as where your Interest deductions at Item D7 and Dividend deductions at Item D8 exceed your Gross interest at Item 10 and Dividends at Item 11).
5. **Family income diverted through trusts:** this is gross income that has been paid out to other family members and investment entities (eg a family investment company) through the use of a fixed or discretionary trust.
